Video Story Boards

Use this sheet to diagram any special ideas, shots, effects, or titles to be used in your video. Please make sure to check your spelling on all names and titles, and indicate if there is a special font or color you want. If not indicated, BenThere will use our best judgment to make your video look its best. Please keep in mind that it may not be possible to exactly match fonts, colors, and graphics due to the limitations of standard definition television.
